

## **PREMTOOL ThermaHeat Underfloor Heating Decoupling Matting**

PREMTOOL ThermaHeat is a decoupling and carrier matting designed for use with loose lay underfloor heating cables from 2 - 5mm. Suitable for residential and commercial use, the PREMTOOL ThermaHeat matting is lightweight and also features waterproofing & anti-fracture properties.

PREMTOOL ThermaHeat helps the user speed up the installation time of tile and stone in interior rooms such as bathrooms, kitchens and living areas. It creates an isolating layer between the substrate and the tiles that prevent cracks from affecting the tiles. Also suitable for renovation projects where a new floor will be installed directly onto the old one.

### **Key Features:**

- Easy To Cut & Install.
- Suitable For Heating Cables 2 - 5mm.
- Decoupling & Crack Bridging Properties.
- Flexible Heating Layouts.
- Suitable For Residential & Commercial Use.
- Heating Cables Lay Flat.
- Prevents surface cracks caused by substrate movement.

Product Code	PRMTM15
Application	Decoupling and waterproofing of tiled surfaces
Material	Polypropelen (PP) dimpled sheet and fleece for easy accommodation of heating cables. (Yellow) Fleece: Polypropylene (PP) (White)
Measurements	Roll length: 15 m Roll width: 1 m Material height: 7 mm
Crack Bridging	2 mm
Adhesive Tensile Strength	0.2 N/mm <sup>2</sup>
Suitable For Underfloor Heating	Yes
Product Properties	Compatible with heating cables from 2 – 5 mm, suitable for indoor use.
Stress Classifications	Robinson Test: Extra Heavy
Storage	Upright with original packaging, in a dry place protected from sunlight
Drawing
