ALGACID

ACTIVE MOULD REMOVER

PORCELAIN TILES, CERAMIC TILES, NATURAL STONES, WALL PAINTS AND WHITE LIMESTONE, CONCRETE AND GROUTING, TERRACOTTA, QUARRY TILES

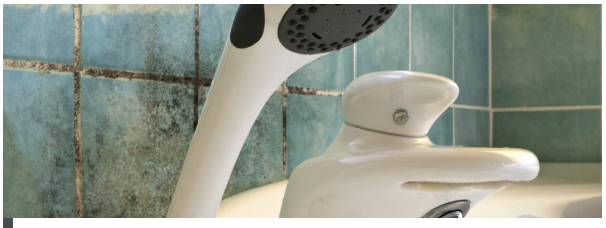

WHAT IT'S FOR

- Rapidly removes mould and cleans stone, plaster, concrete, terracotta, grouting, ceramic, glass and white limestone plaster surfaces.

ADVANTAGES

- Easy-to-use, ergonomic packaging with spray stain-remover.
- Ideal viscosity: can be easily applied to walls.
- Acts rapidly and effectively within a few minutes.
- Effectively removes mould from grouting.

COVERAGE

COVERAGE (1 litre):
10-20 m²

The coverage is purely indicative and depends on the surface's absorption

Packaging

500 ml bottles with spray nozzle in boxes of 6.

WARNINGS

- Keep out of reach of children.
- Do not disperse into the environment after use.
- Do not use in conjunction with acids. It may produce hazardous gas (chlorine).
- Ventilate the room during and after application.
- Do not remove dry mould in order to prevent dispersion of the spores.
- Use the product before its expiry date stamped on the container.

TEMPERATURES

Storage temperature: from 5° to 30° C.
The product should be applied to materials with temperature between 5° and 30°C.

HOW TO USE IT

Ready to use:
no dilution required
Application:
Spray **ALGACID** directly onto the surface to be cleaned, at a distance of about 15-20 cm from the application area, while keeping the bottle upright.
Leave to act for approximately 15 minutes. Soak up any excess product with a damp cloth to prevent dripping. Repeat if necessary, then wipe the surface clean with a damp sponge.
Ventilate spaces during use and for about four hours after use. If chlorine odour persists, ventilate until it disappears.
Wait 12 hours before painting surfaces.
Use the product before its expiry date stamped on the container.

Caution:
Do not spray on wood, plants, fabrics and metals. Should this occur, wash immediately with water. Do not use on new polished stone.
Caution: before using on coloured plaster, first try on a small surface area to avoid possible colour alterations.
Use biocides safely. Always read the label and product information before use.
We recommend the use of personal protective equipment during use. In spaces with low ventilation, wear a respirator mask.
